Students

Alexis Rico Carreto <alexis.rico>
Jordi Romero Morcillo <jordi.romero.morcillo>

Task assignment by class/file of our project:

Makefile

Created by: Alexis Rico

Main (program.cc)

Main structure assigned to: Jordi Romero

Workload by team members:
- Alexis Rico: Some operations and action design.
- Jordi Romero: Most of the input handling operations.

Library

Main structure assigned to: Alexis Rico

Workload by team members:
- Alexis Rico: Non-trivial methods of book and quote insertion/deletion.
- Jordi Romero: Input/Output of current book queries.

Author

Main structure assigned to: Jordi Romero

Workload by team members:
- Alexis Rico: Comparator for natural numbers on strings.
- Jordi Romero: Author data structure and output methods.

Book

Main structure assigned to: Alexis Rico

Workload by team members:
- Alexis Rico: Book data structure and input operations. Non-trivial recursive method.
- Jordi Romero: Output operations and non-trivial replace/frequency table generation.

Quote

Main structure assigned to: Jordi Romero

Workload by team members:
- Jordi Romero: Quote data structure and output operations.

Utils

Main structure assigned to: Alexis Rico

Workload by team members:
- Alexis Rico: Creation of several utility functions in a separated namespace available to all the members inside the project.
